DETAILED ACTION

1. The drawings are objected to under 37 CFR 1.83(a). The drawings must show every feature of the invention specified in the claims. Therefore, the perpendicular surfaces of claim 4 must be shown or the feature(s) canceled from the claim(s). No new matter should be entered. As illustrated, the surfaces are generally aligned with the longitudinal axis of the boat.

Corrected drawing sheets in compliance with 37 CFR 1.121(d) are required in reply to the Office action to avoid abandonment of the application. Any amended replacement drawing sheet should include all of the figures appearing on the immediate prior version of the sheet, even if only one figure is being amended. The figure or figure number of an amended drawing should not be labeled as "amended." If a drawing figure is to be canceled, the appropriate figure must be removed from the replacement sheet, and where necessary, the remaining figures must be renumbered and appropriate changes made to the brief description of the several views of the drawings for consistency. Additional replacement sheets may be necessary to show the renumbering of the remaining figures. The replacement sheet(s) should be labeled "Replacement Sheet" in the page header (as per 37 CFR 1.84(c)) so as not to obstruct any portion of the drawing figures. If the changes are not accepted by the examiner, the applicant will be notified and informed of any required corrective action in the next Office action. The objection to the drawings will not be held in abeyance.

2. The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.

3. Claims 1-12 are rejected under 35 U.S.C. 102(b) as being anticipated by Applicant's admission of an offer to sell the claimed device as early as 1998.

Applicant provided copies of letters written to Cabela's, which are admission of an offer for sale, more than one year before filing. Such constitutes a bar.

4. Claims 1-4,6,8 and 11 are rejected under 35 U.S.C. 102(b) as being anticipated by Miller.

Miller discloses the claimed invention, including a blade e, pivotally and removably attached to the stern of a watercraft.

5. Claims 1-7 are rejected under 35 U.S.C. 102(b) as being anticipated by Coulter.

Coulter discloses a pivotally attached blade shaped as claimed.

6. Claims 1-5,7 and 9-12 are rejected under 35 U.S.C. 102(b) as being anticipated by Keivanjah.

Keivanjah discloses a fin and a line 90.

7. Claims 1-5 and 7-12 are rejected under 35 U.S.C. 102(b) as being anticipated by Stolzer.

Stolzer teaches a blade, and a spring for controlling position.
